Beb Received With Enthusiasm and His Speech Applanded to

the Echo.

SPECIAL TO THE APPRAL. Shelsvylle, Tenn., S ptember 17.

The town was full of people from
this and adjoining counties this morning when the train arrived with the Taylor brothers, just from McMinrville. There were more than 5000 people on the ground when the candidates arrived and got on the stand, coming in company with a few friends.
Alf was introduced by Copt. Warder
in a speech that impressed the audience that he wasn't a b.t ashamed of being a Republican, and which indicated that his caudidate was as open and bold about it as he was. Alf stepped forward where everybody could see him. When he stool up

EXPOSED HIS BALD HEAD to the sun and commenced to speak it was manifest that he was quite sick, being exceedingly hoarse. Everybody sympathized with Bob, who rat back and manifested the deepest interest in his broiler, only winking an eye at the crowd when he couldn's help it, from force of habit. In the kindest way he frequently suggested to his brother to s;and further back and try and protect his head from the sun's rays. For a sick man, speaking under great diffi-culties and in a bad cause, Alf fought bravely. Throughout his speech he spoke of Bob as "my honorable com-petitor," but Bob spoke of him as "my brother." His speech was not at all equal to the one he made two years ago at the old theater in Nashville, but it was an exceedingly plucky speech, and greatly pleased his friends,

as frequent outbursts of applause showed. He laid great stress on the TARIFF AND THE BLAIR BILL; ssid the latter bill passed the Senate by the votes of two-thirds of the Sen-ators of both parties, and it was sup-posed a Democratic House would pass it at once. He said the illiteracy of the South demanded the enactment of this measure. He said, in conclusion, that his honorable competitor was an able man and the party knew what it was doing when it selected him; that having made a platform that took both sides of all questions it was important to get a man as the candidate who could speak an hour and a half and say nothing. Bob was received with shouts of ap-

plause, which continued for some time. He said his brother told the erowd that the Democratic party had no principles except what it tole from the Republican party. He didn't like to dispute about facts, but the Democratic party was a full grown man with all its Jeffersonian principles known to the world before the Republican party was born. He said

would be in when the party went out of power. He said this reminded him or the landlord who demanded a return of his premises and told the tenant they must be in the same condition as when be entered. The tenant tenant, 'Il will drop a cat in the cistern and advertise for In arraigning the Repubbedbugs." licen party, Bob made the most of the impeachment of Andrew Johnson and having Hayes to usurp the money for party purp nes. His manner of discursing the tariff must be the fair thing. He stra gued the Republican party, as the Chicago platform does, for its

INIQUITOUS AND UNEQUAL TARIFF, and showed in the clearest language that the Democracic party is for re-forming and revising this war tariff. But here comes in the pith of his speech on this subject. He showed that reform and protection go together; that in making a tariff there are certain things to be kept in view. It must raise revenue sufficient to support the government economically adminis-tered, pay the premium and the inter-est on the public debt and protect American labor to the extent of the difference in wages in this and foreign countries.

CHARLESTON'S MAYOR

Charleston, S. C., September 17.— Last night was quiet. Work is going on actively, but bricklayers and plan-ters are badly needed. The subsist-ence committees are now issuing rat'ons to nearly 7000 persons, a large majority of whom are colored. No case of distress fairs to receive prompt

Analyzing the Baking Powders. Kremer's

"Royal" the only absolutely pure baking powder made.-Action of the New York State Board of Health.

Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted to examination and analysis by Prof. C. F. CHANDLER, a Member of the State Board and President of the New York City Board of Health, assisted by Prof. EDWARD G. LOVE, the wellknown late United States Government chemist.

The official report shows that a large number of the powders examined were found to contain alum or lime; many of them to such an extent as to render them seriously objectionable for use in the preparation of human food.

Alum was found in twenty-nine samples. This drug is em. ployed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar of commerce used in their manufacture. Such cream of tartar was also analyzed and found to contain lime and other impurities, in some samples to the extent of 93 per cent of their entire weight.

All the baking powders of the market, with the single exception of "Royal" (not including the alum and phosphate powders, which were long since discarded as unsafe or inefficient by prudent housekeepers) are made from the impure cream of tartar of commerce, and consequently contain lime to a corresponding

The only baking powder yet found by chemical analysis to be entirely free from lime and absolutely pure is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent processes of the N. Y. Tartar Co., which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and on account of this greater cost is used in no baking powder but the "Royal,"

Prof. Love, who made the analyses of baking powders for the New York State Board of Health, as well as for the Government, says of the purity and wholesomeness of "Royal":

"I have tested a package of 'Royal Baking Powder' which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates or any injurious substances.
